## Pronoun Paragraph Worksheet

A pronoun is a word that is used in place of a noun to refer to someone or something that is already mentioned, such as I, it, he, she, this, that, me, and so forth. Read through the paragraph below and circle all the pronouns you find. (Hint: There are a total of 19 pronouns to find.)

I was just walking along one day, minding my own business, when a big scary goon jumped out from the bushes. It stuck out its tongue and then showed me his big scary teeth. I ran as fast as I could to the school and locked myself inside the closet. But the goon found me and squeezed under the door! I ran out of the closet and hid on the playground by the swingset. But he found me there, too. I ran to the creek and hid behind a rock, but the goon still found me. "Okay, goon," I said. "You win. You can eat me now." I closed my eyes and waited for teeth to start chewing me up, but instead I felt a slobbery kiss on the cheek. It turns out the goon just wanted to be friends!
