Scientific Questioning Worksheet

"What we observe is not nature in itself but nature exposed to our method of questioning."
- German physicist Werner Heisenberg

1. What do you think this quote means? _____

2. How might the questions we ask change our understanding of something?

3. What happens if we don't ask the right questions? _____

4. People often get tunnel vision and overlook things they might see if they kept an open mind. What are some ways you can stay inquisitive and make sure you're asking the right questions? _____
