My Pet Dinosaur

This is my pet dinosaur. He eats 12 pounds of eggs for breakfast, 30 pounds of chicken for lunch, and 45 pounds of lamb chop for dinner.

1. How many pounds of food does my dinosaur eat in a day?

2. How many pounds of food will he eat in a week?

3. If it takes 5 eggs to make a pound, how many eggs will I need to make him breakfast?

4. If a lamb provides 100 pounds of meat, how many lambs will be needed to feed my dinosaur for a month?

5. If chicken costs \$2.50 per pound, how much does it cost me to feed my dinosaur lunch?
